

Notice on Carrying out the Qualification Certification Work for Foreign Suppliers and Domestic Consignees of recycling Copper and Aluminum Raw Materials

All relevant units:

In order to ensure the quality of raw materials, strengthen industry self-discipline, and promote the high-quality development of China's recycling non-ferrous metal industry, China Nonferrous Metals Industry Association Recycling Metal Branch (hereinafter referred to as: Recycling Metal Branch) intends to cooperate with third-party professional organizations to develop foreign suppliers of recycling copper and aluminum raw materials And domestic consignee qualification certification work (hereinafter referred to as qualification certification). The relevant matters are hereby notified as follows:

1. Organization

Instructor: General Administration of Customs, Ministry of Ecology and Environment
Organization and implementation: China Nonferrous Metals Industry Association Recycling Metal Branch

2. Identification method

- 1.1 Qualification certification enterprises apply for voluntary and free certification.
- 1.2. The qualification accreditation is carried out by a combination of written review and on-site verification.

3. The confirmation procedure

The Recycling Metals Branch has established the "Qualification Office for Foreign Suppliers and Domestic Consignees of Recycling Copper and Aluminum Raw Materials" (hereinafter referred to as the Qualification Office) as a daily office responsible for the daily management and coordination and liaison of qualification certification. Establish a qualification accreditation expert review committee (hereinafter referred to as the review committee) to be responsible for the review of materials, on-site and accreditation results.

- 1.1. After the Qualification Accreditation Office conducts a preliminary review of the completeness and consistency of the declared materials, it shall coordinate and organize the review committee for review.
- 1.2. The Recycling Metals Branch will report the latest progress in the implementation of recycling copper and aluminum raw material standards, and exchanges on related issues;
- 1.3. In the post-epidemic era, companies' opinions and suggestions on the development of the recycling metal industry, as well as issues that need to be coordinated and resolved by the association.
- 1.4. After the publicity is over, the Recycling Metal Branch will issue a qualification certificate and report to the General Administration of Customs for the record.
- 1.5. During the publicity period, if there are objections to the preliminary identification result, the Qualification Accreditation Office will organize verification.

4. Material acceptance

- 1.1. How to submit materials. According to the requirements of the notice (Annex 1), the applicants will bind the application form and the paper version of the materials into

a book in duplicate and express it to the Qualification Accreditation Office (Address: China Nonferrous Metals Industry Association Metal Recycling Branch, 3rd Floor, Chuangjing Building, 38 Shouti South Road, Haidian District, Beijing) Code: 100037), indicating "Qualification Certification Documents"; an electronic version is sent to the mailbox (chinacmra@gmail.com). Intended participating companies, please follow the official website of the Recycling Metal Branch (www.cmra.cn) to download or request the "Qualification Certification Application" from the Qualification Certification Office.

1.2. Deadline. Within 20 working days from the date of the issuance of this notice (subject to the delivery time of the express)

5. Contact the Qualification Accreditation Office for consultation

Foreign supplier: Liu Jiaojiao 010-58892065 13501099861

Domestic consignee: Ye Jiajia 010-58892027 ext. 821 15601106299
