

**EuRIC**

# **INTRODUCTION**

@EuRIC\_Recycling

EuRIC – The recycling industries

[www.euric.org](http://www.euric.org)

# EURIC AT A GLANCE

**75** members

**23** EU and EFTA countries

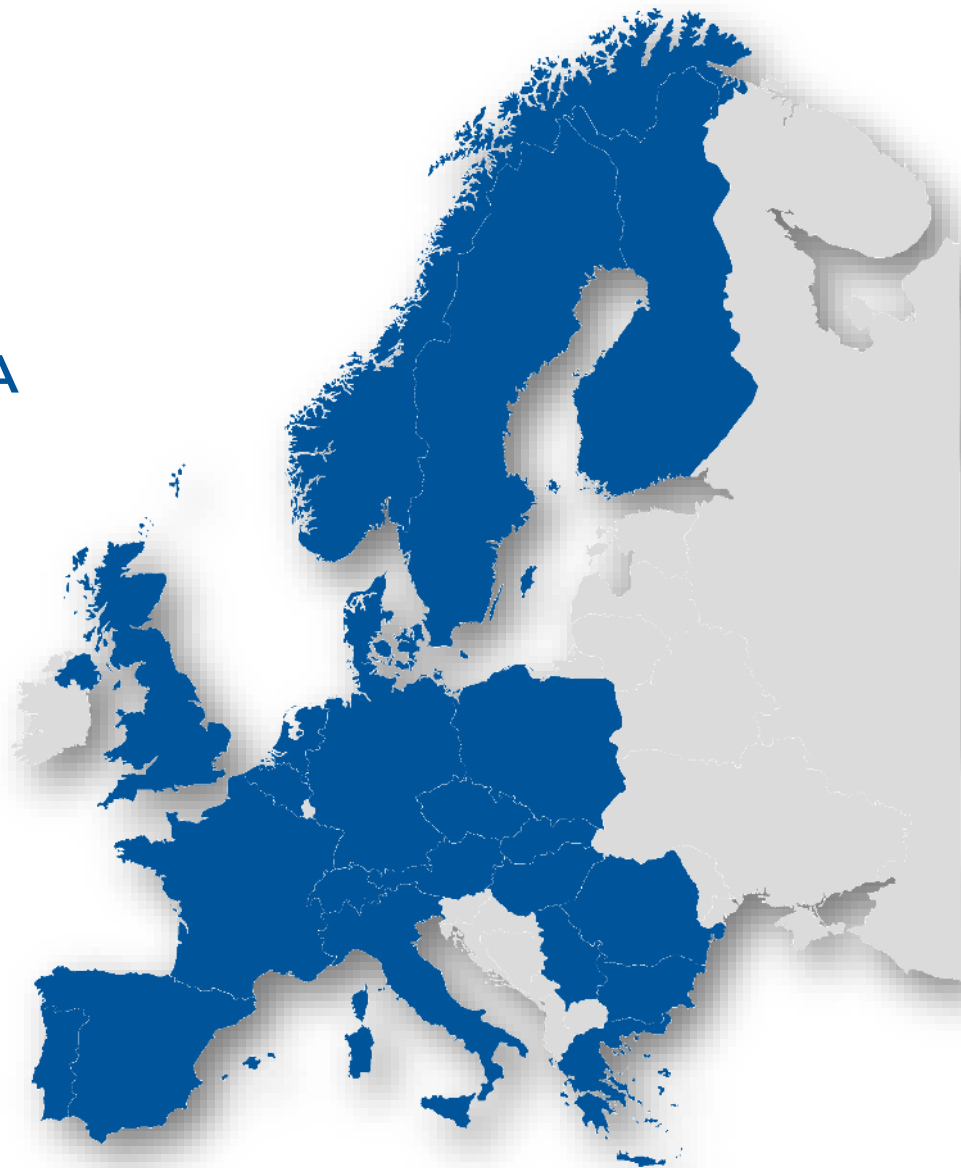

**300,000**  
Green and local jobs

**5500+**  
companies

**95** billion euros turnover

# EURIC STRUCTURE

## EuRIC ERA WG

- Executive Directors from all members
- Issues affecting all streams

Task Force  
Waste and Chemicals

Waste Shipment  
Task Force

EFR ESG WG

WEEE WG

# STREAMS COVERED

Ferrous and non-ferrous  
**METALS**

**PLASTICS**

**PAPER**

**TEXTILES**

**TYRES**

**END-OF-LIFE**  
Vehicles

**ELECTRICAL &  
ELECTRONICAL  
WASTE**

**CONSTRUCTION  
& DEMOLITION  
WASTE**

# EuRIC IN **EU & INTERNATIONAL BODIES**

- Platform on Sustainable Finance (Member)
- Coordination Group of the Circular Economy Stakeholder Platform (Member)
- EIP on raw materials - Steering Committee & Sherpa
- Support to Circular Economy Financing Expert Group of the European Commission (In charge of the sub-working group on incentives for the circular economy)
- Circular Plastics Alliance of the European Commission (Thematic coordinator for ELV Plastics)
- CEN / CENELEC (WEEE, ErP, Paper, Plastics, Tyres, Strategic Advisory Body on Environment – Circular Economy, Etc.)
- Ecodesign and Energy Labelling Consultation (EELCF) (Member)
- Member of Competent Authorities for REACH & CLP (CARACAL) (Type C Member)
- Accredited stakeholder of ECHA (European Chemicals Agency)
- Market Access Advisory Committee (MAAC)
- JRC / IPPC Bureau (TWG)
- Observer of UN Basel & Stockholm Conventions
- Regular expert/speaker at TAIEX, Circular Economy Mission, High Level Conferences of G7 & G20 Environment / COP
- OECD (BIAC)

# **EuRIC MTR**

**Mechanical Tyre  
Recycling Branch\***

\*A branch of EuRIC AISBL

# OUR EuRIC MTR MEMBERS

# Priorities 2024-2029

# Upcoming actions

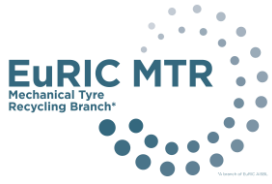

- Prepare a manifesto with the priorities MTR defined for the 2024 - 2029 mandate
- Update of the Mechanical Tyre Recycling Fact Sheet. **Volunteer!**
- Compile an overview of tyre granulation in Europe, as well as the data necessary to assess the effects the microplastics restriction has had and will have in the recycling of tyres
- Feedback on the mutual recognition of End-of Waste criteria

# Reactivation of the Waste and Chemicals Task Force

---

- 1.** Monitor the upcoming REACH revision that may occur as well as any measures announced by ECHA.
- 2.** Create a platform to evaluate the impact of regulatory changes regarding chemicals in a horizontal manner, specially on topics that affect the whole recycling industry( e.g. PFAS, PAHs, POPs, skin sensitizers, endocrine disruptors)
- 3.** Assess how the changes in classification of certain substances may impact each waste stream and evaluate how some branches could collaborate for more consistent positions when approaching the authorities.

The Waste and Chemicals Task Force needs experts! If you or a member of your association can contribute their expertise, please join using the subscription email we will send to our members in the upcoming days.

**Connect with us.**
